Subject: RE: Pre-Meet for ECOS Dec. 3: Alternative Compliance Draft Paper

Thanks for summarizing, Amy! For me, a big revelation that was unclear to me from reading the draft paper was what I highlighted below. Good luck Monday - Amy, Marcia and Eben!

Jim

Subject: RE: Pre-Meet for ECOS Dec. 3: Alternative Compliance Draft Paper

All- Jim and I just spoke to Lia Parisien at ECOS (who has organized the meeting on Dec. 3). I wanted to let you all know the outcome of the call:

Ex. 5 Deliberative Process (DP)

* Lia was open to exploring with us to what degree EPA wants our involvement to be referenced in the paper or if not at all. Lia clarified that the current reference in the paper to federal/EPA involvement was in reference to EPA's participation on the May call and a review ECOs/EDF did of EPA's public record.

* It sounds like they have not thought about the broader optics.

* I had mentioned to Lia that it would be very helpful for the EPA staff involved to get a better understanding of the objective of the white paper and what the timing is.

* Lia clarified the following:

* The paper is intended to create an equivalency framework that states could use if they choose.

* The paper references instances where frameworks are already in place (e.g., 0000a, Colorado)

* The framework is not for state to state OR state to federal equivalency but rather new technology to a state requirement where no framework currently exists.

* They are planning on issuing a final document over the coming few months

Ex. 5 Deliberative Process (DP)

* Both Jim and I touched on our openness to brainstorm creative ways for EPA to be helpful (e.g., ORD MOU, etc.). Lia was appreciative however said that they would need think about this further too.

* For the call Monday, **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

Jim, please add anything I failed to capture for our call this afternoon. Happy to hear any additional thoughts from others.

Thanks,

Amy
